Rexburg, Idaho

Skills

- **Programming** – JavaScript, TypeScript, C#, Rust, Python, SQL, HTML/CSS, Elixir
- **Tools & Platforms** – Linux, React, Next.js, Git, Unity, TensorFlow, Firebase

Education

- **Brigham Young University Idaho** – Bachelors in Computer Science, Anticipated December 2027, GPA: 3.99
- **Rio Salado Community College** – Associates in General Studies, May 2024, GPA: 3.6

Projects

- **Magic the Gathering (MTG) Board** – A personal project where I built a virtual tabletop using React and Electron, enabling mobile device connectivity for fully digital MTG gameplay. Is released with several downloads
- **FTC Robotics** – Developed autonomous control software and led a team of programmers for my high school FTC robotics team in Java, using TensorFlow for real-time object recognition, improving my teams scoring by 40%, which led to us attending state championships
- **Herobotix FTC Website** – React based website for Heritage Academy Gateway's FTC robotics club. Implemented a newsletter system using firebase to email all subscribers and a built-in newsletter editor
- **Doomscroller** – VR Arcade-style shooter built in unity, with enemy path-finding AI and YouTube shorts Integration
